Professional Summary

Entry-level IT support candidate with a completed SAIT Software Development Certificate and hands-on projects in Windows troubleshooting, ticket documentation, PowerShell, and Power BI. Brings 7+ years of customer service and operations experience, including team supervision. Currently studying for CompTIA A+.

Technical Skills

IT support: Windows and network troubleshooting, issue triage, ticket documentation, PowerShell diagnostics

Tools and data: Jira, Power BI, Power Query, DAX, database fundamentals, data integrity

Quality and process: Manual QA testing, defect tracking, SDLC, React fundamentals, process documentation

Technical Projects

IT Help Desk Troubleshooting Lab | Simulated support environment

- Built a simulated support environment for a 20-employee business and documented 15 support tickets, including Windows and network troubleshooting workflows.
- Created a PowerShell diagnostic script and a ticket-analysis dashboard to support investigation and reporting.

IT Help Desk Analytics Dashboard | Power BI, Power Query, DAX

- Built an interactive dashboard using 200 simulated IT support tickets to analyze ticket volume, priority, root causes, technician performance, and SLA results.
- Added priority filtering and translated findings into recommendations for improving resolution performance and support operations.

Portfolio QA Testing and Gong Cha Web Application | Manual QA, Jira, React

- Tested portfolio layouts on desktop and mobile; documented test cases, findings, corrections, and lessons learned in a QA report.
- Collaborated on a responsive retail web application for Gong Cha Shawnessy, contributing dynamic menus and user parameters; tracked development work and bugs in Jira.

Professional Experience

Bakery Supervisor | Calgary Co-op | October 2024 - Present

- Resolve escalated operational issues, prioritize daily work, and communicate blockers to management in a high-volume service environment.
- Create and maintain process manuals and onboarding documentation to support staff training and consistent procedures.

Earlier experience: Bakery Utility Clerk, Calgary Co-op | August 2017 - October 2024

Education and Certification

Software Development Certificate | Southern Alberta Institute of Technology (SAIT) | 2024

CompTIA A+ (Core 1 and Core 2) | In progress - Expected completion: October 2026
